

Hygienic Design Side Panels, SPMHD

The side panels are designed to maintain the ingress protection that prevents liquid or particulates from entering the enclosure, protecting electrical components inside the enclosure. Sealed by a one-piece blue silicone gasket. The panels are fastened to the enclosure with welded studs on the inside of the panel, maintaining the catch-free, smooth outside surfaces to prevent hygienic risks.

FEATURES

A one-piece, removable blue silicone gasket with molded corners helps ensure proper sealing, and is easy to replace, clean, maintain and install. The silicone is FDA 21 CFR 177.2600 compliant

400 pre-grained stainless steel, polished to $Ra < 0.8 \mu m$

Complies with IP66/69 | TYPE 4X, 12, 13 | IK10

Pack quantity: 2 panels with mounting accessories
