

Wire Basket Tray Vertical Down

The nVent CADDY Wire Basket Tray Vertical Down maintains the proper bend radius of high-performance cables as they transition from the end or side of the cable tray. This offering enables smooth wire transfers from horizontal to vertical angles, ensuring cable integrity and optimizing organization. Easily assembled with the nVent CADDY Wire Basket Tray Splice Kit, the Vertical Down is ideal for small cable runs directed to data cabinets and enclosures. Contractors can experience optimal and reliable management for vertical cable dropouts while maintaining a seamless and visually appealing finished result.

FEATURES

Designed to be used with the nVent CADDY Wire Basket Tray Splice Kit
