

nVent CADDY Hook-and-Loop

The nVent CADDY Hook-and-Loop extends our comprehensive line of solutions for securely bundling and fastening cables to wire basket trays. The back-to-back, hook and loop feature spans ½" in width, allowing for effortless cutting while maintaining a secure hold over multiple uses. Datacom and electrical contractors can benefit from a complete cable tray management system by pairing Hook-and-Loop with the nVent CADDY WBT Performance Cable Tray.

FEATURES

Forgiving on cable to protect against over-compression

Suitable for heavy-duty applications

Maintains cable properties and conductor configuration

No sharp edges

One size fits all; cut to desired length

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
