

Wire Basket Tray, Shaped Wire

The construction of the nVent CADDY Wire Basket Tray, Shaped Wire eliminates stress and pressure points on today's high-speed/performance cabling media. The backbone of the platform features our "Shaped Tray" technology—offering substantial support improvement over traditional wire mesh tray. This technology increases support by 400% while reducing cable strain up to 65%, protecting high-performance and fiber optic cable for the life of the installation.

FEATURES

Provides optimal support for high-performance data cable, up to and including fiber optic, Cat 5e, Cat 6, Cat 6A, and Cat 7

UL Classified as an equipment ground conductor, no field removal of paint required

T-Weld edge wire for cable and installer protection

Mill Certificates are available to document recycled content for possible LEED credits/certification

Material: Steel
