

# Wire Basket Tray Double Splice

The nVent CADDY Wire Basket Tray Double Splice facilitates the joining of wire basket trays together. Designed for tray depths of four inches deep and greater, the Double Splice reduces the total number of splices required to secure a cable tray. Simply slide the large washer along the inside of the tray, attach the long washer from the outside and secure the connection by screwing on the nut. Contractors can depend on the Double Splice for a secure and safe solution for datacom-based applications.

## FEATURES

- Easy-to-use, requiring only simple hand tools to install
- Three-piece bolt, washer and nut combination
- Ensures a stable and tight fit between tray sections
- Works with a wide range of tray sizes and configurations

## SPECIFICATIONS

| Catalog Number | Material | Color | Finish            | Height (H) | Width (W) | Length (L) | Unit Weight |
|----------------|----------|-------|-------------------|------------|-----------|------------|-------------|
| WBTDLSPLICEBA  | Steel    | Black | Electrogalvanized | 62.586 mm  | 30.582 mm | 27.2mm     | 0.073 kg    |
