

Box Mounting Plate with Far Side Support

FEATURES

Snap-on installation to Heavy Duty Telescoping Bracket allows for easy positioning along bracket

Can also be mounted directly to metal or wood studs

Innovative far side support allows bracket to be installed on virtually any stud depth and up to 3" wide studs

Key holes provide ease of installation and positive location when mounting boxes

Extruded holes allow mounting of mud rings for both power and data applications

Screws can be removed and reinstalled in extruded holes multiple times without compromising holding strength

Accepts vertically or horizontally mounted single and double gang adjustable mud rings

Box Lock tab secures box to bracket during assembly and allows mud ring to be removed following installation on the stud, providing easy frontal access to the inside of the box

Box Lock feature is ideal for prefab assemblies
