

Wire Basket Tray Waterfall, Vertical

The nVent CADDY Wire Basket Tray Waterfall, Vertical is a robust datacom solution for attaching a vertical cable tray to a horizontal pathway with ease. When integrated with the nVent CADDY Wire Basket Tray the combination offers a seamless flush-mount or top-mount attachment for existing horizontal pathways. Contractors can enter the job site with confidence knowing that—regardless of where the cable pathway goes—they are prepared to handle on-site modifications.

Available in both 12 and 20 in options, the Vertical solution protects and helps funnel cables to an installer's desired location. Transition a continuous pathway from horizontal to vertical while maintaining a seamless and visually appealing finished result.

FEATURES

Quickly attaches to the nVent CADDY WBT Performance Cable Tray Waterfall

Supports vertical tray widths of 12 or 20 in

Safety conceals cable tray cut edges and burrs

Multiple finishes available to achieve an aesthetically seamless look
