

Wire Basket Tray PreForm Elbow 90°

The nVent CADDY Wire Basket Tray PreForm Elbow 90° is a precision-engineered solution designed to streamline cable tray installations when a directional change is needed. With its pre-galvanized steel base and interlocking polymer sidewalls, the PreForm Elbow 90° delivers a clean, consistent, and tool-free installation experience.

Additionally, the PreForm Elbow 90° significantly reduces installation time by eliminating the need for field cutting or job site configuration. This translates into improved productivity and increased efficiency, especially in retrofit scenarios where flexibility is critical.

FEATURES

Multiple color options to coordinate with cable tray selection

Flame-retardant polymer rails ensure the safety of high-performance cabling

Routes cable systems in multiple directions

Provides a clean bend radius and helps to protect the natural bend radius of varying cable systems
