

Wire Basket Tray Waterfall

The nVent CADDY Wire Basket Tray Waterfall is a versatile, easy-to-install cable management solution for wire basket trays. Featuring innovative over-sidewall technology, installers can eliminate stress and pressure points on cable while removing the need to cut tray—saving valuable time on the job. Its flexible design and tool-free installation caters to both over-wall and flush-mount applications.

The Waterfall provides robust support and protection for large, high-density cable bundles and is ideal for managing copper, fiber optic, PoE and DAS cables. Available in both 12” and 20” options with a 120-degree bend radius, the sidewalls help funnel cables to an installer’s desired location, creating a continuous pathway solution while maintaining a seamless and visually appealing finished result.

When necessary, the Waterfall has designated tie-off areas for grounding and bonding.
