

Front Plate, OIFP

The front plate can be mounted and removed easily. Equipment, such as a touch screen, can thereby be installed easily. The plate protects installed electrical equipment from the environment as well as personnel from injuries when it is mounted.

功能

Description: Front plate for components, with a protection film in one side.

Material: 3 mm aluminium.

Pack quantity: 1 piece. Mounting accessories are supplied with the control panel OICP and in OIDES.

The aluminum front plate protects the inside of the control panel providing a protection degree of IP65

The plate can be mounted and removed, ensuring machining operations can be performed easily

The front plate protects the installed electrical components and equipment from the installation environment ensuring that no harm or damage to personnel and equipment is caused

The installation of components can be made quicker, reducing the amount of labour time required

材料: 铝
完成: 研磨
厚度: 3mm
